

# E-BED™

Medical Treatment Bed Alternative Care Cot

THE EMERGENCY BED SYSTEM

## Finally, an emergency medical bed that makes good sense.

Medical grade stainless steel construction. Adjustable height up to 35". Lockable caster wheels. Easily decontaminated. Adjustable backrest, rails, leg extensions and mattress.

## A Great Bed, A Great Price and a Lot More.

The E-Bed converts to:

- Emergency hospital treatment bed
- Alternate care facility cot
- Fully enclosed Pediatric Bed
- Optional fully enclosed Isolation Unit
- Autopsy table with optional tray, tilt and height adjustment
- Adjustable height workstation with optional shelves
- Mortuary storage version stacks three high

**E-Bed** is a very versatile, sturdy and durable multi-use medical treatment bed. Use it in the ER for additional surge capacity or roll it out to the alternate care shelter for mass casualty triage and treatment. Store 15 fully-equipped E-Beds in less than 21 sq. ft. (1.95 sq m) of floor space.

Features:

- Rolling, lockable wheels
- Bed rails quickly remove for patient access
- Adjustable Backrest
- Carry handles for helicopter coordination
- Mattress has RF-welded seams for decon
- Anti-microbial cover fabric
- 2" (5 cm) thick pressure relief convoluted foam
- Complies with WCFR 1633 fire code

Specifications:

- Measures 80" x 31" (2 m x 79 cm)
- Weighs 92 lbs. (41.7 kg)

E-Bed shown with System Options

**The E-Isolation Pod™ System** is a portable fully-enclosed negative pressure isolation unit. The flexible clear PVC enclosure is completely removable in seconds for patient loading or removal. The entire unit can be decontaminated for re-use.

The E-Isolation Pod unit includes:

- Mattress and mattress tray, which snaps into position on the standard E-Bed frame
- Four 30" (76 cm) non-latex butyl gloves
- Blower provides 7 CFM for 15 air changes per hour
- Rechargeable lithium battery with low flow, low battery alarm
- All HEPA filtration
- Access ports for meds and saline
- Medical-grade stainless steel frame
- Casters with locking wheels

Specifications: Measures 80" x 31" x 60" (2 m x 79 cm x 1.5 m)

Weighs 135 lbs. (61 kg)

**The E-Cot** will provide many years of service for mass evacuee sheltering.

The E-Cot includes:

- Medical-grade stainless steel frame
- Molded patient support deck can be decontaminated.
- Folds flat for easy storage.
- Can be converted to full treatment bed by adding backrest, side bed rails and a mattress.

Specifications: Measures 80" x 31" x 21" (2 m x 79 cm x 53 cm)

Weighs 46 lbs. (20.8 kg)

# E-Bed System Options:

## Isolation Pod Kit

Converts E-Bed or E-Cot into an Isolation Pod.

Part Number: E-Pod-Kit-500-1

## E-Pediatric Conversion Kit

Converts any E-Bed or E-Cot into a Pediatric Care Bed.

Part Number: E-Pedbedkit-500

## E-Bed Side Rails

This kit includes a set of two removeable bed side rails to be added to any E-Cot or E-Bed.

Part Number: E-BEDRAIL-500-2
