

Guardian Shelter

Key Features and Benefits

Modular Design

- + Allows for infinite scaling in length
- + Optional wall configurations can be swapped to configure for your use case
- + Patent pending sectioned cover set and flooring allows for in-operation repair or replacement

Rapid Deploy

- + 4-person set up in 30 minutes
- + Able to be set up by 2 people
- + Articulated single piece arch system minimizes set up time and reduces part count
- + Articulating Endcap frame reduces part count and speeds up deployment time

Accessory Mounting

- + Patent pending integrated connection system turns every frame member into a quick-release mounting point for accessories
- + L-Track fittings can be used to support your custom needs

Heating and Cooling

- + High performance thermal liner kit
- + Insulation further improves thermal performance

Common Uses:

- + Billeting and Sleeping Accommodations
- + Tactical Operations Centers, Command and Control (C2) Centers, and Communication Facilities
- + UAV and TUAV Hangars
- + Vehicle Maintenance Systems and Repair Facilities
- + Equipment Storage and Warehouses
- + Morale, Welfare and Recreation (MWR) Facilities
- + Workshops and Training Facilities
- + Recreation and Gymnasiums
- + Dining Facilities (DFAC)
- + Reception, Staging, Onward Movement and Integration (RSOI)
